MULTI-PURPOSE GREASE

NYCO GREASE® GN 148

BMS 3-33, AIMS 09-06-002,
MIL-PRF-23827 C, SAE-AMS-3052

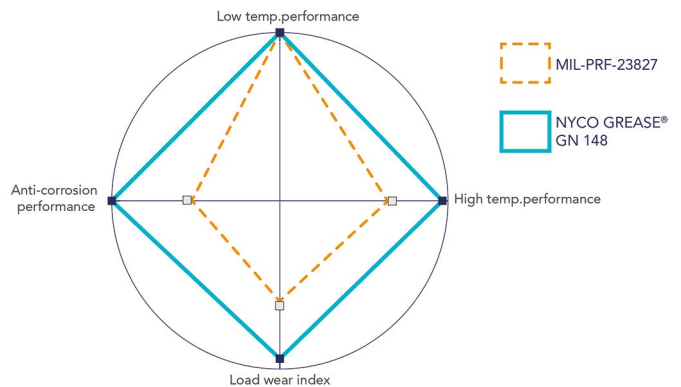

Multi-purpose grease of new generation with ideal properties for use on airframe, helicopter systems and landing gear.

Fortified with high performance additives and thickened with complex lithium soap, it brings :

- Excellent protection against wear and corrosion;
- Longer durability;
- Outstanding temperature range -73°C to +135°C;
- High lubrication capability under extreme loads.

Ideal for mixed fleets: approved by Airbus, Boeing, ATR, Embraer, the U.S. Navy.

+ Extended bearings life and maintenance intervals.

NYCO GREASE® GN 148

- Improved corrosion properties;
- High performance anti-fretting properties;
- Better NBR seal compatibility than MIL-PRF-23827 of 1st generation.

SOLUTIONS : customized products list for easier maintenance

Make maintenance easier with fewer multi-functional products.

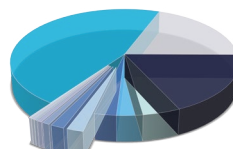

We work with airlines in order to help them streamlining the number of products used for all maintenance tasks on their aircraft. By reducing the number of products, our customers gain :

- Easier global maintenance consumables management;
- Better cost efficiency in products supply;
- Diminished products mix-up risk.

Example: AMM A320 greases

BEFORE STREAMLINING

13 NYCO products for
90% maintenance tasks

AFTER STREAMLINING

3 NYCO products for
90% maintenance tasks

3 NYCO greases can cover up to 425 lubrication tasks on A320
