

NYCO has been selected by Airbus to provide turbine oils and greases

Paris, October 18th, 2022:

NYCO has been selected by Airbus to provide multiple lubricants including, but not only, turbine oils and greases, from its large Aeronautics & Defence product range. NYCO products are now available to all Airbus worldwide sites (Airbus Commercial, Airbus Helicopters and Airbus Defence and Space) to support Airbus needs.

Vertically integrated, NYCO develops, manufactures, and commercializes its lubricants such as its **Turbonycoil® 600** turbine oil or its multi-purpose **Nyco Grease® GN 148** which are used worldwide both on Aeronautics and Defence markets, and part of the Agreement.

"We are really glad to support Airbus with our wide lubricant product range and especially with NYCO's field proven turbine engine oil TURBONYCOIL® 600. This agreement allows airlines and operators to receive their brand-new aircraft with NYCO products filled at Airbus Final Assembly Lines. We do thank Airbus, for the trust and the confidence in our company and our products." said Pedro Dasi – NYCO Civil Aviation Director.

Approved against demanding specifications, including SAE AS5780 SPC Class and MIL-PRF-23699 G STD Class, Turbonycoil® 600 is qualified by all major engine manufacturers (General Electric, Pratt & Whitney, Pratt & Whitney Canada, Honeywell, Rolls-Royce, Safran Aircraft Engines, Safran Helicopter Engines, CFMI, ...). It has logged more than 35 years of experience in jet engines of military and commercial aircraft.

Approved against AIMS 09-06-002, BMS 3-33, MIL-PRF-23827 C and SAE-AMS-3052, Nyco Grease® GN 148 multi-purpose grease has ideal properties for use on airframe, helicopter systems and landing gear. Fortified with high performance additives and thickener, it brings excellent protection against wear and corrosion, longer durability, and high lubrication capability under extreme loads. More than 90% of the 425 lubrication maintenance tasks on an A320 can be performed with this sole product.

PRESS RELEASE

About NYCO

NYCO is a French company, expert in the development and manufacture of high-performance lubricants and synthetic ester bases for Aeronautics, Defence and Industry.

A key partner for Armed Forces, Airlines, OEMs, MROs and Aero derivative Gas Turbines users around the world, NYCO offers a comprehensive product range approved against the most demanding civil and military specifications. Our international network of subsidiaries, distributors and agents has enabled us to expand our presence in more than 100 countries around the world with more than 80% of our revenues generated through exports.
