

NYCO and Peach Aviation Limited Sign Long-Term Supply Agreement for TURBONYCOIL® 600

Singapore, September 23, 2026,

NYCO and **Peach Aviation Limited** (hereinafter: "**Peach**") have signed a multi-year supply agreement for TURBONYCOIL® 600, supporting the airline's Airbus A320ceo, A320neo and A321LR fleet.

Based in Osaka, **Peach** is one of Japan's fastest-growing airlines, operating a fleet of more than 40 aircraft across Asia.

Under the agreement, NYCO will supply TURBONYCOIL® 600, a high-performance synthetic turbine engine oil, for use in **Peach's** CFM56-5 and LEAP engines.

*"**Peach** is the first airline in Japan to select NYCO's TURBONYCOIL® 600, and we are very proud to support the airline together with our Japanese partner. This new customer relationship is fully aligned with NYCO's strategy to further strengthen its presence in the Asia-Pacific region. We would like to thank **Peach** for its confidence in NYCO's lubricant technology and look forward to building a long-term partnership together,"* said Rémi YOU, Sales Manager – Civil Aviation at NYCO.

*"Japan is a highly demanding market, where reputation, trust and product quality are essential. Securing **Peach** as a customer is strong recognition of the quality and performance of NYCO's products, as well as the commitment of our teams and our Japanese partner. This agreement represents an important milestone in the development of NYCO's presence in Japan and across the Asia-Pacific region,"* said Pedro Dasi, General Manager APAC at NYCO.

-END-

PRESS RELEASE

Approved to demanding specifications, including SAE AS5780 SPC Class and MIL-PRF-23699 G STD Class, TURBONYCOIL® 600 is qualified by all major engine manufacturers, including General Electric, Pratt & Whitney, Pratt & Whitney Canada, Rolls-Royce, Safran Aircraft Engines, Safran Helicopter Engines and CFMI. With more than 40 years of proven experience in military and commercial aircraft applications, TURBONYCOIL® 600 has demonstrated its performance and reliability in a wide range of jet engines.
